How to **gain distance, control, & accuracy**

And cut **Strokes, Strokes**, and more **Strokes**

**STOP !!!**

1. Hitting from the rough
2. Being snookered by a tree
3. Driving down the wrong side of a dogleg
4. Adding two or more strokes to every par 4 & 5

You know the saying:

**“You Drive for Show and putt for Dough”**

But, if you're at par when you start to putt, you won't get the **Dough** even if you performed for the **Show**.

The drive sets you up the rest of the hole.

And the **MaxX Driver delivers the drive**.

- Is designed to drive that **extra distance with accuracy**.
- Has **adjustable CG** locations that create the optimal ball flight and shot shape **for the draw or fade you need**.
- **Forged face** flexes at impact creating **more ball speed** with **better control**.
